

Your Heart. Our Promise.

Dear Valued Patient

This letter is to make you aware that we have elected to return to private practice, reactivating the partnership under which we originally practiced together for over a decade and half: Carient Heart & Vascular.

Why are we making this change?

We all entered medicine with the goal of helping our patients live healthy lives with healthy hearts. We desire to treat our patients as individuals. For us, this means being available and accessible for you and your patients when you need to get in to see us. This means focusing all our energies and resources on the communities we serve. This also means keeping up with new technology and guidelines to take care of all patients to the best of modern medicine.

As we transition to practicing as Carient Heart & Vascular, we believe you will see that more than ever, patient care remains our first priority.

In terms of logistical changes, you can expect this transition to be seamless. As our patients, you will continue to see the doctors and staff you have come to trust, in the **same locations with the exception of our Haymarket and Ashburn office move. With the same access to your medical records**, our doctors will remain affiliated with the same hospitals and insurance providers; **Novant Manassas and Heathcote, Inova Fairfax, Fauquier and Sentara Woodbridge.**

We feel privileged to be working with you over many years to come. If you have any questions about this transition, please do not hesitate to contact us at **877-415-4116**.

Sincerely,

Carient Heart & Vascular Physicians and Staff
